Tamam Desk

App Price List

Fixed prices in US dollars. Pay once at checkout on tamamdesk.com/services/app-build. The first year of hosting and care is included.

Package	Screens	Sign-in and database	Platforms	Price	Yearly care after year 1
Web app, Starter	up to 5	No	Installable web app	**$349**	$99
Web app, Standard	up to 12	Yes	Installable web app	**$799**	$149
Android and iPhone app, Starter	up to 5	No	Google Play and App Store	**$799**	$149
Android and iPhone app, Standard	up to 12	Yes	Google Play and App Store	**$1,499**	$199

Included in every package

• A written scope you approve before we build

• Design and build of the screens and features in your brief, up to your package limit

• Up to 2 rounds of changes inside the approved scope

• Testing on real devices and a review by a person before delivery

• App icon, store images and a privacy policy (mobile apps)

• Submission to Google Play and the App Store on your own accounts (mobile apps)

• You own your app, your data and your accounts

• First year of hosting, security updates and small fixes

Not included, paid to others

• Google Play developer account: $25 once, paid by you to Google

• Apple developer account: $99 a year, paid by you to Apple

• Your own domain name, if you want one for the web app

Extras, agreed in writing before work starts

• Extra screen: $40 (web app) or $60 (mobile app)

• Extra language: $50

• Logo design: see the Logos and design service

• Urgent delivery: +25%

• Features such as payments inside the app, maps with live data, chat or games: custom quote

What we do not build

• Apps that store medical records, payment card numbers or data about children

• Adult, gambling, alcohol, interest-based lending, deceptive or copied apps

• Apps published under Tamam Desk’s own store accounts: apps are always published on yours

Timing

• Web app: 7 to 14 working days after you approve the scope

• Mobile app: 3 to 6 weeks after you approve the scope, plus Google and Apple review time

• Google and Apple decide whether an app is approved. We build to their published rules and fix what they ask, but cannot promise approval.

How to order

• Choose a package at tamamdesk.com/services/app-build and fill in the short brief

• Download the App Specification Form on that page, complete it, and email it to hello@tamamdesk.com with your order number
